Businesses agree to allow a delegation from the coalition to perform site inspections and low-level compliance checks on a regular basis. These visits will be used to help keep members aware of any additions to the agreement, aid businesses in any areas that are needed, and enhance the interim agreement. This agreement will bind businesses together, make all members accountable to one another, and to our community.

All businesses will contribute a minimum of 1% of net revenue to the coalition's community initiative fund monthly. This is our home, we are of the belief that those that have the ability to make our community safer and better have the obligation to do so. The community initiative fund will be used to enhance pre-existing programs running in our territory as well as establishing others that look to make a positive impact for our people. From infrastructure to social programming, strong communities raise strong people. The first program to be funded will be the establishment of a community-owned testing facility.

As an interim agreement, these are the foundational pieces we will use to move forward together. Community safety, product quality, active business cooperation, and giving back to OUR community.
